

THE TOWER

SOME YEARS LATER

Come on, watch what they are now up to.

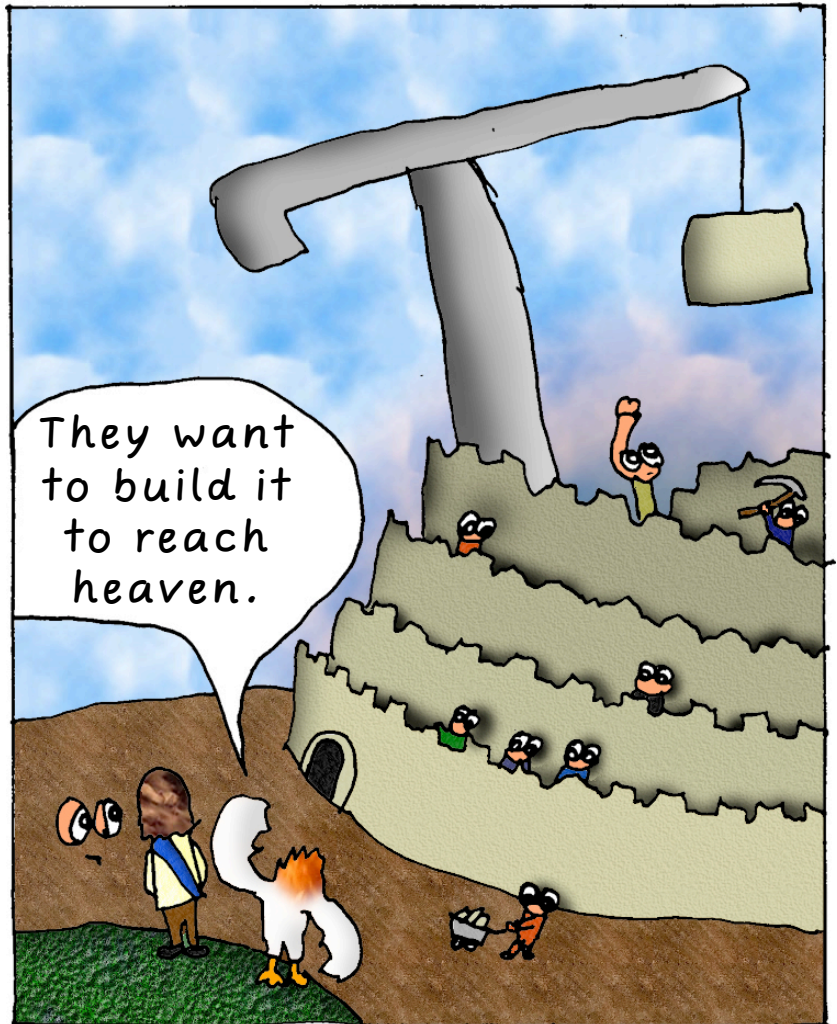

They just invented the brick. Now they say: „We can reach everthing we want.

This tower ist just the beginning

Soon they will forget about us and ruin themselves again. We have to do something.

I have an idea.

THE NEXT DAY

您好
我是綠色

مرحبا ، إنني أخضر.

Здраво, јас сум зелен

That was an awesome idea. Now they speak different languages, they will not be able to finish the tower and spread around the world.
